**Perspective Definition**

You are able to see the “big picture”, but you focus on the “here and now”. The philosophy that works for you is, “What I do today is essential to my tomorrow’s tomorrow”.

**Theme: Balanced insight**

**Strengths & Weaknesses**

**How This Perspective Can Help You**

- You are able to see and appreciate each step in your journey.
- You are able to gift others with applied insight.
- You are able move yourself and others from the “here and now” to the “big picture”.
- You are able to bring balance to a situation.

**How This Perspective Can Hinder You**

- Intense problems of today can become all-consuming.
- You can become distracted by the tyranny of the urgent.
- The “here and now” can tend to undermine your balance, which can lead to a high degree of frustration.

**Application Points**

- You need to learn how to master today with respect to change and balance. Your truth page is your balance page. These truths and affirmations should be placed in front of you daily.
- Executing your truth statements in the “here and now” will help you to engender balance in your environment.
- Paralysis can occur, however, if you find yourself in an environment that focuses too much on the “here and now”.
- Celebrate your ability to bring applied insight to “big picture” situations.
- Provide structures and systems that help you to remain aware of the “big picture”. 
Personal Management

Highest and Best Use of this Ability

Environments where clarifying the steps in a larger project or process is needed and appreciated. Environments where you can negotiate between people who are specific and people who are global.

What are Your Natural Predators?

Critical “here and now” problems, which create a fear-based environment.

Consequences of Failing to Manage this Ability

Because your “here and now” is both vivid and vitally connected to your “big picture”, fear of change, of imbalance, and the need to deal with pressing issues can cause you to become either immobile or overwhelmed. Your environment or situation can become toxic for you and for others.

Results of Choosing to Manage this Ability

You will apply your vivid insight into “big picture” situations and environments in a way that is both effective and celebrated.
